Hybrid Mobile App Developer Hourly Positions

Department of Educational Studies
College of Education and Human Ecology
The Ohio State University

The Research Laboratory for Digital Learning in the College of Education and Human Ecology is recruiting a mobile app developer to assist in developing a hybrid mobile app for educational research purpose. This developer will work with an educational researcher in developing this app.

Desired Skills:

- Good at communicating, problem solving, and delivering work on time.
- Experienced in developing HTML5, CSS3, and JavaScript.
- Experienced in using Ionic (Cordova-based), AngularJS, and ngCordova.
- Experienced in SQL programming and developing Web SQL (SQLite).
- Familiar with how iOS and Android works on mobile devices (e.g., using Location Services in a hybrid app).
- Solid Knowledge of REST/JSON and AJAX.
- Portfolios on public or private Git service(s) are required for interview.

Application Requirements:

Applicants must be a current student at The Ohio State University in programs such as computer sciences, electronic engineering, information sciences, multimedia design and development, or a related field. The positions will be on an hour basis with $10/hour with an expectation of working 20 hours per week. The timeframe for this position will be from June 2016 (or earlier starting date upon negotiation) to August 2016. Work-study qualified students are preferred. Please send a one-page cover letter, resume, and links to previous developmental projects to Sheng-Bo Chen (chen.4880@osu.edu). Review of application will begin upon receipt of these materials.
